**DIAGNOSTICS**

▲  Largest Contentful Paint image was lazily loaded                                            ⌄

🟧  Reduce unused JavaScript  — **Potential savings of 21 KiB**                                 ⌄

◯  Initial server response time was short  — Root document took 470 ms                         ⌄

◯  Avoids enormous network payloads  — Total size was 336 KiB                                   ⌄

◯  Avoids an excessive DOM size  — 237 elements                                                 ⌄

◯  Avoid chaining critical requests  — 1 chain found                                            ⌄

◯  JavaScript execution time  — 0.1 s                                                           ⌄

◯  Minimizes main-thread work  — 0.3 s                                                          ⌄

◯  Minimize third-party usage  — Third-party code blocked the main thread for 0 ms             ⌄

◯  Largest Contentful Paint element  — 660 ms                                                   ⌄

## Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

NAMES AND LABELS

⚠️ **Links do not have a discernible name**                                                        ⌄

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)                                              Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

PASSED AUDITS (23)                                                                    Show

NOT APPLICABLE (33)                                                                   Show

## Best Practices

USER EXPERIENCE

⚠️ **Displays images with incorrect aspect ratio**                                                 ⌄

TRUST AND SAFETY

○ **Ensure CSP is effective against XSS attacks**                                                  ⌄

PASSED AUDITS (13)                                                                    Show

NOT APPLICABLE (3)                                               Show
